

# GRASS HAY & PASTURES

**At Green Up:** Apply 2 quarts of Earthquake or Earthquake Plus and 2 to 4 quarts of Forage Factor, per acre.

**After 1st cutting:** Apply 1 quart of Earthquake or Earthquake Plus and 2 to 4 quarts of Forage Factor, per acre.

**After 2nd cutting:** Apply 1 quart of Earthquake or Earthquake Plus and 2 to 4 quarts of Forage Factor, per acre.

**Follow up applications after each cutting:** Apply 2 to 4 quarts of Forage Factor, per acre.

**We also suggest adding 4 ounces of Nano Pro to every application for enhanced nutrient delivery.**

If grazing, applications should be every 30 to 45 days as needed.

## COMMENTS:

- Given cost per acre, most growers are applying 4 quarts of Forage Factor, per acre.
- Follow up applications should be made with 2 to 4 inches of re-growth for best results.
- When needed, BrimStone 17 can be incorporated into this program for added sulfur. 1 to 2 quarts per acre, in addition to Forage Factor, or in place of.
- All applications can be made with herbicides and pesticides.
- When applying Sugar Creek Ag products with other products, including herbicides, pesticides & fungicides; a jar test is recommended for compatibility.
- When spraying herbicides, use **WILDFIRE** for a more effective weed kill. Saves you time and money!
- If your crops are needing calcium, consider applying Cal-zone. 100% plant available!

## Other products to consider for Grass Hay & Pasture include:

Micro-N-Rich (3-0-0 with 5 micros)	Liquid Kelp	REVAMP (stimulates microbial activity)
PaybackK (2-16-16 with 5 micros)	Nano Fe	Nano Phos

We understand that farming practices will vary from farm to farm, as do growing conditions, crop needs, etc. Feel free to contact us to discuss the best ways to utilize our products on your farm. Our products should be considered a supplemental “tool” to assist you in meeting your goals and to address soil and crop challenges.
