Application frequency: weekly, bi-weekly or monthly.

## COMMENTS:

- When applying Sugar Creek Ag products with other products, including herbicides, pesticides & fungicides; a jar test is recommended for compatibility.
- One quart of Liquid Kelp can be added to any foliar application. Other products to consider for Blueberries include: Cal-zone, Nano Phos, Nano K, Nano Zn, REVAMP, INSECT-X-CITER, and SSS
- When foliar applying nutrients and/or fungicides consider adding 4 ounces of Nano Pro

We understand that farming practices will vary from farm to farm, as do growing conditions, crop needs, etc. Feel free to contact us to discuss the best ways to utilize our products on your farm. Our products should be considered a supplemental “tool” to assist you in meeting your goals and to address soil and crop challenges.
