SUGAR CREEK
Liquid Humic

EARTHQUAKE

Liquid Humic

EARTHQUAKE has been developed by a team of experts from the University of California, and is a registered E.C. supply of humic acid which has been shown to be effective in the treatment of a wide range of soils. It is a natural product of the earth and is safe for use on all crops and soils.

GENERAL INFORMATION: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils.

HOW TO USE: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils.

UNREGISTERED ANALYSIS:

Item	Value
Humic acid	75%

DIRECTIONS FOR USE:

SOIL APPLICATION: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils.

PLANT APPLICATION: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils.

WATER TREATMENT: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils.

SEED TREATMENT: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils.

WATER TREATMENT: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils. They are a natural product of the earth and are safe for use on all crops and soils.

SEED TREATMENT: Sugar Creek As sugarcreek granules are made from a natural source of humic acid, they are safe for use on all crops and soils. SUGAR CREEK

Triple 8 *Plus*

**8-0-8 with 6 Micronutrients -
For Use On All Crops**

Triple 8 Plus is formulated to be applied during the vegetative growth stage or when the plant is in flower. Triple 8 Plus can be used on a broad spectrum of field, fruit, vegetable, and forage crops.

GENERAL INFORMATION:

Triple 8 Plus is a water-soluble, highly concentrated, complete fertilizer containing 8% nitrogen, 0% phosphorus, and 8% potassium. Triple 8 Plus also contains 6 micronutrients: boron, calcium, copper, iron, manganese, and zinc. Triple 8 Plus is formulated to be applied during the vegetative growth stage or when the plant is in flower. Triple 8 Plus can be used on a broad spectrum of field, fruit, vegetable, and forage crops.

IMPORTANT USE INFORMATION:

Triple 8 Plus is a water-soluble, highly concentrated, complete fertilizer containing 8% nitrogen, 0% phosphorus, and 8% potassium. Triple 8 Plus also contains 6 micronutrients: boron, calcium, copper, iron, manganese, and zinc. Triple 8 Plus is formulated to be applied during the vegetative growth stage or when the plant is in flower. Triple 8 Plus can be used on a broad spectrum of field, fruit, vegetable, and forage crops.

GUARANTEED ANALYSIS:

ANALYSIS	GUARANTEE
Nitrogen (N)	8.00%
Phosphorus (P)	0.00%
Potassium (K)	8.00%
Boron (B)	0.05%
Calcium (Ca)	0.50%
Copper (Cu)	0.005%
Iron (Fe)	0.05%
Manganese (Mn)	0.05%
Zinc (Zn)	0.05%

RECOMMENDED RATE:

Apply 1.0 to 2.0 pounds of Triple 8 Plus per acre, depending on crop and soil conditions. For best results, apply Triple 8 Plus during the vegetative growth stage or when the plant is in flower. Triple 8 Plus can be used on a broad spectrum of field, fruit, vegetable, and forage crops.

Greenhouse: Pretreat soil or medium with 1oz Earthquake and 1 ounce of REVAMP per gallon of water.
 Dosamatic/Dosetron 1:100 = 1oz of Earthquake & 1oz of REVAMP per gallon of water in the concentrate tank.
 1:20 siphon = 1oz of Earthquake & 1oz of N2-Grow per gallon of water in the concentrate tank.

Transplant Water: Apply 2 to 3 gallons of Phos Factor Z with 2 quarts of Earthquake or Earthquake Plus, 1 quart of Liquid Kelp, and 5 ounces of REVAMP per acre. If using a starter other than Phos Factor Z, add the Earthquake/Earthquake Plus, Liquid Kelp and REVAMP as suggested.
100% ortho-phosphate 6-24-6 available from Sugar Creek Ag (inquire for pricing and availability).

Vegetative Growth Stage: Apply 2 quarts (1qt/1000 plants) of Triple 8 Plus per acre with 1 quart (16oz per 1000 plants) of Earthquake or Earthquake Plus. Micro-N-Rich and BrimStone17 (16 to 32 ounces per acre) may be added to any application if additional micronutrients or sulfur is needed.

Reproductive Growth Stage: Apply 2-4 quarts (1-2 qts/1000 plants) of Payback per acre with 1 quart (16oz per 1000 plants) of Earthquake or Earthquake Plus, and 1 quart of Liquid Kelp.

COMMENTS:

- When applying Sugar Creek Ag products with other products, including herbicides, pesticides & fungicides; a jar test is recommended for compatibility.
- One quart of Liquid Kelp can be added to any application during the growing season.
- If your crops are needing calcium, consider applying Cal-zone. 100% plant available!
- When foliar feeding, it is suggested to add 4 ounces of Nano Pro to every application.

Other products to consider for Hemp and Cannibis include:

Nano K	Nano Phos	Nano Fe	Nano Zn	OVERHAUL	N2-GROW	Dropkick 21
